Weekly timetable

Day	Room 1 (B414)	Room 2 (B418)
Tuesday	AI-901A	AI-901B
Wednesday	Gen AI + Prompt	AI Engineering (MLOps)

Every student takes one AI-901 section and one elective on different days. Current Console pairing is Gen AI -> AI-901A and MLOps -> AI-901B, without a published capacity cap. AI-901 evenings are a weekly mock exam plus individual Azure practice with tutor Q&A. Wednesday electives run as team projects toward the November 28 hackathon. Your personal assignment is delivered privately. Do not post your schedule or credentials in a group chat.

Consulting requests receive extra online LMS access; Consulting does not reopen as a physical class in the current timetable.
